

Holiday Star

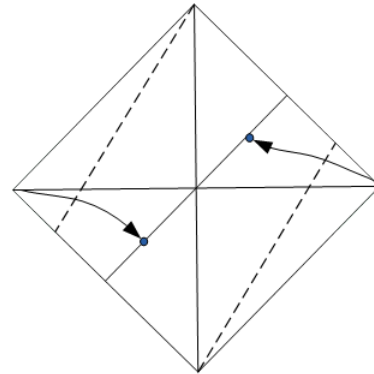

Print out the special origami paper on the next page, or simply use any tinsel/foil or color construction paper or art paper you may have.

These paper stars are easy to fold and assemble into your own combinations to make beautiful decorations to brighten up your home or office. You can also make these from old magazine pages, scrapbook papers, newspapers, even sheet music, or whatever you happen to have lying around.

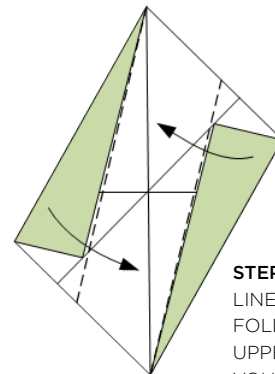

Have fun, and happy holidays to you and your family!

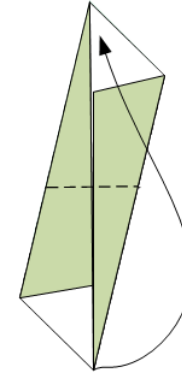

STEP 1: FOLD A SQUARE IN HALF IN THE MIDDLE, AND AGAIN DIAGONALLY ON BOTH SIDES, AS SHOWN ABOVE. UNFOLD.

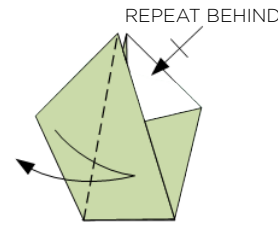

STEP 2: TAKE THE TOP LEFT CORNER AND LOWER RIGHT CORNER AND FOLD BOTH SIDES INTO A SMALLER TRIANGLE, AT AN ANGLE AS SHOWN ABOVE. UNFOLD.

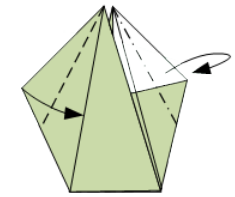

STEP 3: MAKING SURE THE CORNERS LINE UP AND THE SIDES ARE EVEN, FOLD THE LOWER LEFT AND UPPER RIGHT CORNERS USING YOUR PREVIOUS FOLD LINES.

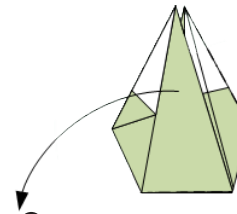

STEP 4: FIND THE CENTER OF THE PAPER (WITH OUR INITIAL FOLD LINES) AND FOLD BOTH SIDES INWARD ONCE MORE. MAKE THE TOP LEFT CORNER AND LOWER RIGHT CORNER MEET, ESSENTIALLY FOLDING YOUR PAPER FORM IN HALF.

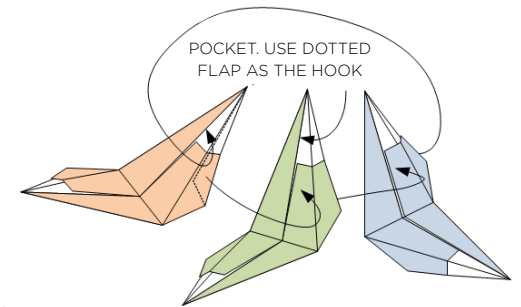

STEP 5: YOUR PAPER FORM NOW HAS TWO "EARS" OR SIDE FLAPS. TAKE THE RIGHT EAR AND FOLD IT OVER AND INTO THE CENTER. TURN OVER AND REPEAT WITH THE EAR ON THE OTHER SIDE.

STEP 6: FOLD EACH EAR AGAIN, MAKING EACH FOLD OUTWARD AND MEETING AT THE LOWER CORNERS.

STEP 7: PINCH EAR FLAP AND PULL OUTWARD, UNFOLDING YOUR INITIAL EAR FOLDS. YOUR PAPER FORM SHOULD LOOK LIKE THE ABOVE. (NOTE THAT ONE SIDE WILL HAVE THE EAR FLAP FOLDED AT AN ANGLE, AND ONE SIDE FOLDED AT 90 DEGREES)

STEP 8: OPEN YOUR PAPER FORM AS SHOWN ABOVE. EACH PAPER FORM IS NOW A "UNIT" FOR YOUR UNIQUE HOLIDAY STAR!

UNIT ALLOWS VARIOUS
POLYHEDRAL CONSTRUCTIONS
